Descrição

Perfil pretendido ARE YOU READY FOR A NEW CHALLENGE?

Celonis is the leader in business transformation software, turning process insights into action with The Celonis Intelligent Business Cloud, built on the process mining technology it pioneered. For Fortune500 companies, transforming to an intelligent enterprise has become a key strategic priority. Headquartered in Munich, Germany and New York, New York, Celonis has grown 5,000% in 4 years and 300% in the past year. Valuated at over \$2.5Billion, Celonis received \$27.6M Series A in June 2016 and \$50M Series B funding in June 2018 from investors Accel and 83 North and \$250M Series C in November 2019.

As a Data Scientist, you use our Celonis Process Mining Technology in different proof-of-value/pre-sales projects to demonstrate the value our software generates to potential customers. Thereby, you help make digital business processes more transparent and harmonize our customers' gigantic data flows by applying the latest extraction and transformation methods. In doing so, you are involved in projects with process data of varying extent and complexity. Over the whole course of the project, you proficiently handle our customers' individual needs and actively participate in customer workshops. You will spend your first year in our Center of Excellence in the Madrid office, receiving a structured and detailed enablement by experienced experts together with other graduates from the EMEA region.

YOU...

- ...have successfully completed your studies in Business Informatics, Computer Science, Information-oriented Business Administration/ Economics, Mathematics or a comparable degree program
